Claim Rejections - 35 USC § 112

Claims 9-11 and 13 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for an isotopically-etched upwardly-extending, or hourglass shaped structure, does not reasonably provide enablement for a metallic anchor. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The claims are broader than the enabling disclosure. The disclosure is enabling for a mechanical intercoupling structure that is embedded and encapsulate, as in the context of claim 20. However, it is not enabling for a metallic anchor, which broadly interpreted, could read on simply using a planar metal layer as a glue layer.

Allowable Subject Matter

Claims 20-46 are allowed.
